

Information for Colorado Prescribers of Prescription Drugs

BRIUMVI™ (ublituximab-xiiy)

Colorado Revised Statutes Section 12-280-308 requires prescription drug manufacturers to disclose in writing to Colorado prescribers the Wholesale Acquisition Cost (“WAC”) of marketed drugs when engaging in prescription drug marketing.

The prices listed below represent the Wholesale Acquisition Costs (“WAC”) established and made available to the public by a third-party publisher. WAC does not reflect discounts, rebates and other reductions in price. The price paid by patients may be higher or lower than the prices listed below and is dependent on the individual patient’s insurance coverage.

Marketed Product: BRIUMVI 150mg/6mL injection for IV

WAC*: \$ 11,110.00

Package Size: 1 Vial

Colorado law also requires manufacturers to provide the names of generic prescription drugs from the same “therapeutic class” as the marketed products. Colorado defines “therapeutic class” as “a group of similar drugs that have the same or similar mechanisms of action and are used to treat a specific condition.” The following generic prescription drugs are in the same “therapeutic class” (based on the definition of “therapeutic class” under Colorado law) as the listed TG Therapeutics product:

Generics:** None
